Sansa Fuze Software For Mac

Use Finder to copy the audiobook to your device • Plug your MP3 player into your computer using a USB cable.. You can transfer audiobooks to MP3 players on a Mac by manually copying the files to your device.. • Open a new 'Finder' window (you can use Command + N on your keyboard). If you're using an Apple device (iPhone, iPad, or iPod), instead of the ones below, because transferring to Apple devices works differently.. • Open a 'Finder' window • Go to Documents > My Media > MP3 Audiobooks.
